# PACKAGING WASTE COMPACTOR FOR PROFESSIONAL KITCHENS

**DUKINPROFESSIONAL**

*Simplify the handling of waste in your professional kitchen. Choose the innovative solution, which will save your time and money.*

## SOLUTION FOR COMPACTING PACKAGING WASTE IN PROFESSIONAL KITCHENS

**PACKPRO** is a universal compactor for packaging waste **in stainless form** for professional kitchens. The device provides the **reduction of waste volume up to 80 %** and enables the compacting of all kinds of waste, i.e. cans, tins, Tetra Paks and plastic bottles. With the compactor you will **save a lot of time** in handling waste, in addition it also features easy cleaning (all the parts **can be washed in the dishwasher**).

## 7 REASONS TO CHOOSE THE PACKPRO PRODUCT

- Reduce the costs of waste disposal,
- significantly reduce time for waste treatment,
- reduce the volume of waste by up to 80 %,
- after compacting the waste retains its compactness and does not expand,
- compacting of all types of waste – cans, tins, Tetra Packs and plastic bottles,
- easy cleaning and maintenance,
- possible subsequent separation of waste at the collection centre.
