CARDBOXPRESS 200 - SOLUTION FOR THE DISPOSAL OF CARDBOARD PACKAGING

CardboxPRESS 200 is an innovative cardboard packaging press, suitable for smaller and medium-sized companies, that require a universal and easy to use cardboard compactor.

UNIVERSALITY

Suitable for compression of cardboard packaging of different sizes and shapes.

EASY TO USE

Large loading opening and adjustable bale size enables easier handling of the machine.

TIME SAVING

Cardboard packaging does not need to be torn before compression.

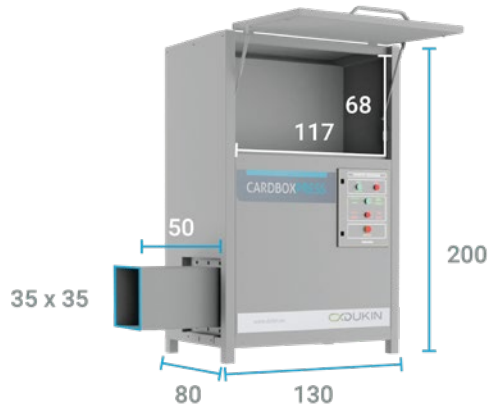

FLEXIBILITY

Adjust the bale size according to your needs.

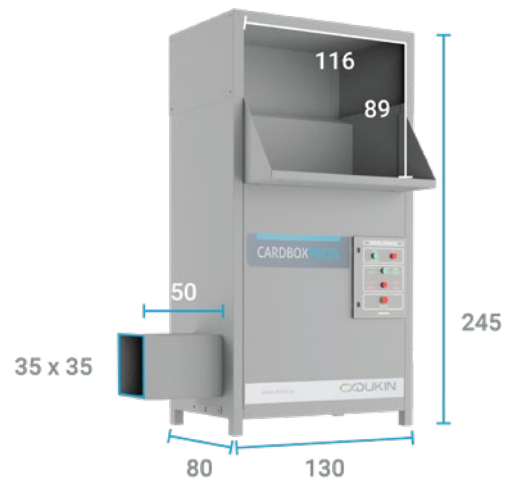

HOW DOES IT WORK?

Simply load the cardboard packaging into the large loading opening and start the machine. The machine tears the cardboard packaging and compresses it into a bale, tied in an endless PE bag. It stops automatically after the running cycle.

1/MODELS

CARDBOXPRESS 200 WITH A LID

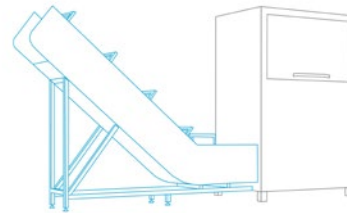

CARDBOXPRESS 200 WITH LOADING OPENING

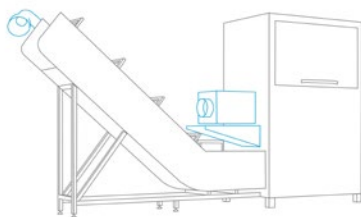

2/ADDITIONAL EQUIPMENT

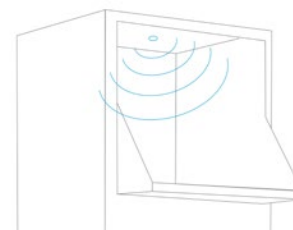

Retractable drawer with STOP function

Output transport channel for direct loading into a 1100L container

Output transport channel for direct loading into a 1100L container with dust particle filtration system

Autostart module

3/TECHNICAL INFORMATION

Models	Voltage/ current	Power	Dimensions of the machine (WxHxD) [cm]	Dimensions of the bale [cm]	Weight of the bale (40 x 40 x 80 cm)
CardboxPRESS 200 with a lid	400 V; 50 Hz / 8 A	2,9 kW	180 x 200 x 80	40 x 40 x L	approx. 20 kg
CardboxPRESS 200 with loading opening	400 V; 50 Hz / 8 A	2,9 kW	180 x 245 x 80 (+ 32)	40 x 40 x L	approx. 20 kg
